DEATH IN THE AIR.

A changeable climate is the most exeiting cause of pneumona. The mild to-day cold to-morrow, wither is a profine breeder of the disease. might air, and by sitting in draughts. The proper way to treat pneumona is to prevent its development.

Have a earn that you are sufficiently clad to meet inclement and changeable weather See that the wet feet and exposure to draughts do not result in cold. If a wold is contracted theck it at once before pneumona is developed, for it is a well known fact that a protracted cough may suddenly develop into pneumona, with a slight additional cold Den't let the disease make any headway. Fortify the system against it by nch, nutritions, liquad food. This can be accomplished in no other way so well as by the librar itse of Comulsion, an excurzed preparation of Cod Liver Oil with Gualacol prepared by T. A. Skoum Co., New York, and sold by all Druggists. Taken early, when the first symptoms of the cold appear, it gures it promptly and prevents the development of pneumonia, it is a rich, liquidition, and it is a well known fact that strong food is the most frimidable foe of pneumonia. It keeps the distributed and puts the disease; In such a condition that they throw out the oold and thus resist the disease;

The Allianca Affair.

The New York Inhune says Secre tary Gresham's earliest comments upon the Allianca affair were timorous and indiscreet. His remark that Captain Crossman ought to have permitted the Span ish gunboat to make such inquiries as were necessary and then to have presented to the State Department a case for redress and damages for detention, is characteristic of a Secretary of State whose incompetence and want of American feeling have been disclosed in ever important diplomatic affair during his administration. He will reverse ble judgment as soon as he has lessure to examine the records of the department, and he will file in due time with the Spanish Minister a protest which will bring the customary apologies from Madrid and Havans. His premature discussion of the affair is only significant as a proof of lack of American instinct.

That is a very serious matter, for the pri Whig and Courier. That is a very serious matter, for the pri-State is American feeling Secretary by State is American feeling Secretary by State in February By State in Secretary by Secre
